

The CGR Course: Take It Home Week 2

The reason that we call The CGR Course an "experience" instead of a "class" is because the life change that takes place during The CGR Course doesn't only happen during our formal teaching time. We hope that you will meditate on the teaching all week long. This week we have provided you with another chapter from a book called "The Life: A Study of Who God Is." This is a book that is published by NavPress and we have used this portion of the book by permission from the publisher. We have broken the readings down into five days. Following the reading plan will help you to mediate on the material for the entire week. As you follow the readings, be sure to look up the Bible passages as you are prompted, and be sure to answer the questions that are provided. Again, this is all a part of the experience. May God bless you as you continue on your path to Connect with God, Grow with others, and Reach the world.
